By Telegraph to The Times.
STOCKTON, Nov. 10.—[By the Asso ciated Press. The sensation of this day's record meeting was the wonderful performance of Arion, the two-year old Electioneer colt, raised and owned by Senator Stanford, in trotting a mile without a skip in 2:10%. This colt came to Stockton a few weeks ago with race record of 2:21, and at the first attempt reduced his mark to 2:15% peating the world's two-year-old record of 2:18, which was then held by Sunol. Marvin drove Arion again and reduced his record to 2:141/4, which all horsemen said would never be equaled unless Arion should himself beat the mark. Today the famous driver brought the colt out confident that he would lower his record, but most persons realized that it was a desperate race to make. Marvin had no bother with the youngster, for he is as level-headed as an old turf veteran, and never gets rattled. When he came up just right Marvin nodded for the word, and was sent away at a rulning clin with sondy Smith close up.

for the word, and was sent away at a ruining clip with Sandy Smith close up behind with a runner. The game youngster trotted out squarely, and without a hitch went to the quarter pole in 83 2-5 seconds. That was a without a hitch went to the quarter pole in 33 2-5 seconds. That was a record-breaking gait, and those who did not know the colt said he could not keep up the clip, but he did and went to the half in 1:04 3-5, making the second quarter in 31 1-5 seconds, a terrific gait even for an aged horse. On he went strong and game as an old racer, going to the three-quarters pole in 1:37 4-5, making the third quarter a little slower in 33 1-5 seconds. Then it was thought the young colt would not be able to keep up the killing gait, but he is a game trotter and bred to stay. He came to the finish strong and fast going under the wire without a touch of Marvin's whip, in 2:10½, making the finishing quarter in 32 4-5 seconds.

It was the greatest race against time ever seen on any track, for it was a square trot from start to finish. It was a wonderful performance, and everybody gave Marvin credit for his patience in training and handling the colt.

Palo Alto, the game aged stallion of

Palo Alto, the game aged stallion of Palo Alto, the game aged stallion of the Stanford stable, was driven by Marvin against his record of 2:09½. The horse was feeling fine, and seemed anxious to go, but he was not so high strung as on his last appearance a week ago. Marvin has a way of toning up the old fellow to make him feel like a colt, killing the pain in his lame leg by the free use of cocaine. A week ago the stallion was too ambitious, but to-

day he was shaped up differently. He moved without much show of lameness and seemed to be anxious to go. Mar-vin took the word after two or three scorings and the horse went away very fast, making the race against Sandy with a runner from the start. He went to the quarter in 31%, to the half in 1:03%, to the three-quarter in 1:83%, but left his feet after passing the post Half way down the stretch he quickly. went up again, but was caught easily and came home without the whip in

Late in the afternoou Marvin trotted him a second time, hoping to reach the mark he wants for the hero of the stable, as he is anxious to retire the game old fellow. Palo Alto was not distressed by his first fast work, and he seemed to be ready to go a wonderful mile. Marvin gave him one scoring and then nodded for the word. The stallion went away at a terrific gait, with a runner exciting him. Marvin held the old fellow back as well as he could, talking to him all the while, but he went to the quarter post in 31 1/4, and to the half at the rapid gait of 1:031/4. From the half he slowed up a

1:03½. From the nail he slowed up a little, going to the third quarter in 33 seconds, reaching the post in 1:36½. He made a magnificent finish in aboutthe same time, coming home without a skip in the mile in 2:09½.

The horse was too tired to break the same the same killing to break the The horse was too tired to break the record in the second killing heat in one day, but he trotted the second mile only a quarter of a second behind his best mark, and only half a second slower than the world's record, held by Aller-

CHEAPER WHISKY.

What the Trust Expects to Do by the Takamine Process.
CHICAGO, Nov. 5.—[By the Associated Press.] Jacob Woolner, one of the directors of the whisky trust, today said that the company had made all preparations to begin distilling spirits at Peoria next week by the Takamine process. This process will be gradually introduced in all distilleries nov controlled by the company. Mr. Woolner said that by the new process they will be able to make spirits 15 to 20 per cent. cheaper than at present. He added that Takamine would at no distant day demonstrate that he could make beer, ale and other fermented liquors by his process and much

Woolner delared that the trust would not buy any more distilleries as it now has 90 per cent. of the custom-ers, and is securing those of its rivals by offering goods at lower prices. The Takamine process, Woolner believes, will eventually give the trust complete control of the whisky output.

Third State About to Declare Indepen ence of the Dictator's Rule-Indications of a Coming Civil War.

y telegraph to the times.

London, Nov. 10.—[By Cable and Asociated Press.] A dispatch just re-eived from Pernambuco says that the province of Grao Para has declared its independence of the Brazilian republic.
This action was caused by the assumption of dictatorial powers by Da

Fonseca. A later dispatch from Pernambuco, re ceived at 7 p.m., brings further alarm ing intelligence. There is no doubt that the situation of affairs in Brazil, arising out of the assumption of dictatorial powers by the late president of the republic, Deodoro Da Fonseca, is rapdly approaching a point where resort to arms will be necessary to establish the position of the dictator. The dispatches of yesterday showed that there was a feeling of discontent prevailing everywhere throughout Brazil. licans see in this last move of Da Fon-seca an attempt to override the authority vested in him by the Constitution So strong has the opposition to Da Fon-seca grown that yesterday it was announced that the important province of Rio Grande do Sul had declared its in-

Rio Grande do Sul had declared its in-dependence.

The dispatch just received shows that steps will have to be immediately taken to prevent, if possible, the disintegra-tion of the republic. The province of Gras Para, has followed the example set by Rio Grande do Sul, and today de-clared its independence. Gras Para is one of the most important provinces in

Brazil. The indepence movement will probably be followed by a similar declaration by the province of Bahia.

Dictator Fonseca is moving rapidly to suppress these attempts to set up separate governments, and has ordered a wareful to be proceed without the contraction of the contr a warship to proceed without de-lay to Rio Grande to take such action as is necessary to prevent the provin-cial authorities from carrying their de-laration of independence into effect. It behooves him to move with alac-

rity, for already a man has been named in connection with the contemplated presidency of the province. He is Silveno Martinez, who, during the last revolution, was banished from the country. He subsequently was allowed to return. Silveno Martinez, without doubt, possesses greater reditted in figures them.

A British Correspondent Indulges in Bitter Diatribe Against the United States-Egan and Schley Savagely Criticised

By Telegraph to The Times.
CHICAGO, Nov. 10.—[By the Associated Press.] The News' Washington correspondent asserts that the Government has determined in case Chile does not proffer an explanation of the Baltimore affair soon, to make another and eremptory demand. If Chile still fails to act, all available vessels of the United States navy will be concentrated in Valparaiso harbor.

To this end a number of vessels will be withdrawn from foreign squadrons. If this has no effect, it will be for Congress to act.

HOSTILE TALK. The Chilean Foreign Minister Complain

About American Officials.

New York, Nov. 11.—{By the Associated Press.] The Herald's Santiago cablegram contains an interview with the Chilean Minister of Foreign Affairs, Matta, in which the latter conveys the impression that the representatives of the United States in Chile had seemed to think they could, in every way, dictate to Chile what she should or should not do. This stand on their part, he said, was untenable. He depart, he said, was untenable. He de-nied the assertions that the present government is hostile to the United States, and said when all that has transpired since the war began was known, the people of both countries would be called in to act as judges.

As to the refusal to permit an officer of the Baltimore to be present at the judicial investigation it was simply because it was a violation of the rules of Chilean legal procedure. The Judge of crimes controls these secret trials, and it is left to his discretion whether and it is left to his discretion whether or not to ask the presence of an out-sider. All this information hus been transmitted to Minister Egan.

A BRITISH DIATRIBE.

Another Correspondent Vents Venom on Everything American, London, Nov. 10.—[By Cable and Asciated Press.] The Santiago correspondent of the Times telegraphs a long diatribe against false Chilean news sent by correspondents or invented in America. Taking his text from the blowing up of the cruiser Baltimore, he says:

says: "Since the arrival of the American newspapers here we have had, in addition to the scandal created by rowdy diplomacy, an unseemly squabble among American correspondents respecting the authorship of false telegrams published in America. These quarrels tend to place America in an unenviable light. It is necessary again to call attention to the disregard by American officials here of the pacific orders alleged to have been sent from Washington. These orders give the text of the ostensible instructions previously sent to sible instructions previously sent to maintain the strictest neutrality during the Chilean civil war. Owing either to their knowledge of the secret intentions of the Washington cabinet or other motives, Minister Egan, Commander Schley and the American Consul continue to show the bitterest animus against the Congressionalist government publicly. It is notorious that Minister Egan's attitude and that of his assistants continue to be such as may provoke a rup-ture of the friendly relations between

the two countries. "Viewed in connection with later events, Commander Schley's landing sailors on October 10 ceases to bear the aspect of thoughtless imprudence. The aspect of thoughtiess imprudence. The preparation of the Baltimore for action at midnight in a friendly port was an insult to the dignity and good faith of Chile, and more so still are the declara-tions Commander Schley has just made in several quarters that war between the United States and Chile is inevitable. The Amesican coasul at Valpa-raiso is spreading similar reports, and adds that a strong United States squad-

ron is coming here. "In consequence of this official fili-bustering the warships of other nations which were about to leave Chile have been ordered to remain. These delib-erate provocations will not make the Chilean government abandon its correct Chilean government abandon its correct judicial attitude. There is, I repeat, absolutely no hostile feeling in Chile against the United States, but such feeling may be brought about unless more prudence is displayed.

"The captain of the Itata speaks with

enthusiasm of the public sympathy he received in California in strong contrast with the vexatious conduct of the American officials. The captain of the Esmeralda reports that Washington or-ders prevented him from coaling at Acapulco, and thus the Esmeralda was prevented for weeks from assisting the Congressionalists.

"Minister Egan has already congratulated Admiral Montt upon his election as president. This is a diplomatic blunder, Admiral Montt being only a

candidate for the presidency. It is fair, however, to attribute this unp donable mistake to Minister Egan's sire to further interfere with the affairs of Chile." The Cruiser San Francise WASHINGTON, Nov. 10.—A telegram received at the Navy Department this morning, announced the arrival of the U.S.S. San Francisco at Acapulco yesterday. She will sail this after-

yesterday. She will noon for San Francisco. Montt's Credentials Arrive WASHINGTON, Nov. 10.—The credentials of Señor Montt, Chilean Minister, have arrived from Santiago. It is not known at the State Department when the Minister will be presented to the President. RAILWAY MEN MEET.

Appliances for Cars.

NEW YORK, Nov. 10.—The committee ppointed by the last national conven tion of railroad commissioners to secure Congressional action looking to uni formity in safety appliances for railformity in safety appliances for rail-road cars met this morning, four mem-bers being present. There was a large attendance of rallroad men from all parts of the country. Chairman Crocker opened the proceedings by reading replies, which the committee had received from companies represent-ing 125,000 miles of railroad, concern-ing the kind of automatic couplers and brakes used on freight cars. They fix the total number of freight cars in the brakes used on freight cars. They fix the total number of freight cars in the United States at 978,000, of which

United States at 978,000, of which number only 129,300 were shown to be epuipped with automatic car couplers. Chairman Crocker said that in the opinion of the committee imperative action should be taken by Congress to hasten and insure the equipment of freight cars throughout the country with uniform automatic couplers and train brakes. In coupling or uncoupling cars there were killed during the year ended June 30, 1889, over 300, ling cars there were killed during the year ended June 30, 1889, over 300, while 6757 were injured. During the following year 369 were killed and 7841 injured.

Col. Haines, president of the American Railroad Association, reminded the committee that the association was

now engaged in making the Master Car Builders' coupler (vertical hook) the standard car coupler throughout their standard car coupler throughout their system, that type having been agreed upon as the best. Haines said that there were 1,200,000 freight cars in the country and only 200,000 were equipped with automatic couplers. The cost of equipping the other 1,000,000 would be \$25,000,000. Five years' time at least would be registed. The agreement cost of fitting quired. The aggregate cost of fitting up the cars with air-brakes the country over would be \$50,000,000. These things must be considered.

Master Workman Powderly was re ceived with rounds of cheers. General Secretary and Treasurer Hayes's report showed that though the expenditures of the past year were swelled by several extraordinary outlays, the revenues were sufficient to meet all demands. He hopes that the order may have a respite from strikes and labor troubles, so that the general officers can attend to educational work. The total annual receipts were \$99,-699, and the expenditures \$102,474. of the year was \$13,053. The balance now in the treasury is \$10,263.

The General Executive Board's re-port states that there is a growing feel-ing in England and other countries in favor of autonomy, and recommends that this should be granted.

The board has prepared a full state-ment of the difficulty with the Government of the dimenty with the Govern-ment Bureau of Engraving and Print-ing at Washington, which will be distributed to delegates.

The board complains that the labels of the order are counterfeited syste-matically, and as the law affords no suf-ficient protection, asks the appointment of a special committee to divise means

be Settled. An Agreement Reached Between En-

The Bering Sea Dispute to

gland and this Country. A Treaty Framed Subject to Ratifica

tion by the Senate. The First Announcement of the Compac Made During the Hearing of the Sayward Case in the

Supreme Court.

By Telegraph to The Times.

WASHINGTON, Nov. 10.—[By the Associated Press.] The public was taken into the confidence of the diplomatic branch of the Government this afternoon in the continuation of the hearing in the Sayward case, and the first announcement was made that the prolonged diplomatic correspondence tween Secretary Blaine and Lord Salisbury had resulted in an agreement by which, with the consent of the Senate, the long-pending dispute over the seal fisheries in Bering Sea would be definitely settled.

Solicitor-General Taft, who was addressing the court, made the first intimation that the correspondence be-tween the two countries had reached the point of an agreement upon arbi-tration. He stopped at this point, and when Justice Gray desired some more explicit statement as to whether an agreement upon arbitration had been agreement upon arbitration had been actually reached, the Solicitor-General hesitated to reply, and intimated that perhaps he had revealed more than he, not being a Cabinet officer, and being authorized to speak only on legal questions, should have done.

Thereupon Attorney-General Miller himself interposed, and not only substantiated all that the Solicitor-General had said, but went further and an-

had said, but went further and announced that the Government had effected an agreement. This was practically the first announcement made as to the progress of the Bering Sea negotrations since the last correspondence was made public, showing the difference of opinion between the two governments as to the points of arbitration. It was surprising that the news should first come out in an argument in court and the Attorney General was court, and the Attorney-General was asked, after adjournment, if he would

asked, after adjournment, it he would throw some light on the subject.
"It is true an agreement upon arbitration has been reached," he said, "Yes," headded, "the matter has been settled between the two governments; that is, subject to ratification by the Senate."
"What are the points of arbitration?"
"I cannot say any more than I have said in court. Why don't you go to to the State Department? Yes, you can

the State Deparment? Yes, you can state as a fact that an agreement has been concluded."

Solicitor-General Taft was next seen, but would only confirm what the Attorney-General had said. "In the last correspondence," he said, "there was simply a difference between the two governments as to the points of arbitration. Well, the correspondence since then has resulted in a treaty which now only needs to be ratified by the Senate."

The reporter suggested that it was something unusual to hear the announce-ment of such important news in an argu-ment in court. "But it's a fact," was

the reply.

Secretary Blaine positively declined to make any statement touching the

matter. The inference drawn from the de The inference drawn from the developments today, including the statement made by the Attorney-General to a representative of the Associated Press, as shown above, is that the President will submit to the Senate a 1 agreement in the nature of a treaty between The balance on hand at the beginning the United States and Great Britan by the United States and Great Britan by which the parties bind themselves to accept as final and conclusive the definition to be given by arbitrators of the exact rights of the United States in Bering Sea as well as to pay any awards of damages suffered by the nation declared to have had the true contention. It is also presumed that the arbitrators have been selected, but none of the officials seen would discuss the details of the agreement, doubtless for the reason that it has to be submitted to the Senate hat it has to be submitted to the Senate for ratification and, therefore, comes under the executive session rules of the Senate, which require secrecy to be ob-

served. When Taft finished his argument Mr. Choate in behalf of Great Britain addressed the court.

AN OPEN LETTER! VERY IMPORTANT!

To Those Who Have Learned the Lesson in . . GEOGRAPHY=

And all others interested, I wish to say a few words further regarding the East Whittier property. A good many have made inquiries, some have purchased, but we still have choice locations. Those who come first will get the choice. We expect many eastern people here to locate during the winter. There is no question as to the richness of the soil and the beauty of location, or to its adaptability to orange raising, and it is pronounced by experts the very choicest of lemon land. Lemons and Oranges are without question the wealth-producing fruits of Southern California, and the one who has ten acres or more in bearing orchards of these fruits has a fortune, not for today but for a lifetime, continually increasing; better than a settled annuity. The mesa land on the southern slope of the Puente Hills, from the Rincon Gap eastward, beautiful, rich, sheltered, warm in winter, cool in summer, is the garden spot of Los Angeles county and Southern California; Whittier and East Whittier the choicest of the choice. The magnificent East Whittier water system, with a capacity of 20,000,000 gals.daily now carrying 5,000,000 gals., makes the future of this tract of land assured. The fountain artesian wells of the company have just been measured and show a variation of only 2 per cent. from their flow when first open, establishing the permanency of the flow. For the present the price of the East Whittier tract is \$200 per acre with water, and you get a clean title to both. The terms are liberal, one quarter down, balance in one, two and three years at 7 per cent. We do not sell to speculators, only to those who will improve, thus insuring the best class of people. The East Whittier tract is close to schools, both graded and primary, and to the Whittier Academy, just opened with most promising outlook; best of teachers and good attendance. Trial of Ed L. Baker on a Charge of Forgery. O. A. Stassforth Repeats His Story of

the Transaction. An Amended Complaint in the Burns Divorce Suit,

nent Horticulturist Arrested o Serious Charge—Unexpected Ending of the Chinese Murder Trial -General Court Notes.

The trial of the case against Ed Baker, the real estate agent, arged with having forged the name of Morris M. Green to a mort-gage in September last with intent thereby to defraud O. A. Stassforth of \$4000, was commenced in earnest be-fore Judge McKinley and a jury in Department Six yesterday morning.

was the first witness called by the prosecution, and he was upon the stand all day, his cross-examination being particularly lengthy and searching. The witness repeated the story he had told of the whole transaction upon the trial of the Hoy case last week.

Stassforth said he first met Baker on Temple street in the latter part of August while he was looking after some property, and at Bunker Hill avenue he and Baker began to talk about real estate and values. The defendant talked a few moments and then referred to a man in Vernon who wanted to borrow \$8000 on some lands. The quantity of land was named. The witness said he was prepared to entertain a loan for a smaller sum.

The next day Baker called at the witness's office and further talk was had about the loan. He said the way had about the loan.

ness's office and further talk was had about the loan. He said the man who wanted the money was Morris M. Green, an old settler and well known in the county. After considerable talk it was agreed to go out and look at the land. Baker drove the witness out to the property. "There is Green, now," observed Baker, pointing to a man standing near the fence. The man came up, and Baker called the by the name of Green and introduced him to the witness. ness. The two shook hands and immediately they began to talk about the neighborhood. The witness inquired as to where certain men resided. The man represented to be Green seemed to be ignorant as to who his neighbors were, and Baker volunteered to assist him a little. At that time witness supposed he was talking to Green, the owner of the property, but he afterward learned that his real name was John C. Hoy, and he was not the owner of the land. Hoy was brought into court for identification by the witness.

On reconvening for the afternoon session, at 2 o'clock, Stassforth did not respond, and an attachment was issued ness. The two shook hands and imme-

sion, at 2 o'clock, Stassforth did not respond, and an attachment was issued for him, returnable forthwith. Before it was served, however, the witness presented himself, and being unable to give any valid excuse for keeping the court waiting for twenty minutes was fined \$5 for contempt.

Zue G. Peck, Esq., counsel for the defendant, cross-examined the witness with unusual severity, and was interrupted by the Court on one occasion for attempting to mislead the witness. He retorted that the rules of practice allowed an attorney on cross-examination to mislead a witness, whereupon the Court remarked that such ethics would, if pursued, result unpleasantly for the gentleman at the bar. gentleman at the bar.

Burns against James F. Burns, ex-Chief of Police, was dismissed on motion of the plaintiff, who thereupon filed an amended complaint, drawn up by her attorneys, Messrs. Adams & Mitchell, in proper form.

In this document Mrs. Burns sets forth that she and defendant were married at Nevada City on February 21, 1873, and that they lived together continuously thereafter for several years. She further alleges that on October 7, 1886, in the District Court of Brown County, Neb. where they then resided, defendant while plaintiff was sick and confined to her bed, filed his petition for a divorce, and that on

Woodroof of No. 941 South Hill street, by means of false pretenses, on April 80, 1889. He was released upon bonds in the sum of \$2,000 to appear for examination next

week.

In an interview with a Times reporter, last evening, Mr. Barclay denounced his arrest as a malicious outrage. He stated that during the boom he borrowed \$2200 from Woodroof, giving him a mortgage on three lots at Monte Vista, which he claims are worth double the amount today. During the past few months a number of foreclosure cases have been brought against him, and as soon as he found this out Woodroof claimed that he thought the mortgage he held was for the lots on which the Monte Vista Hotel stands when he loaned Barclay the money.

CALIFORNIA TRAFFIC ASSOCIATION.

The letter of Eugene Germain of this city to J. B. Stetson, chairman of the California Traffic Association, has been misunderstood. Mr. Germain is not the president of the Los Angeles Board of Trade, nor did he write as such. Neither did he state that the merchants of Los-Angeles were ready to enter into the association at once, or thata branch association would be started here. Mr. Germain merely wrote as a business man and shipper, and in order that there may be no misunderstanding about his position, his letter to Mr. Stetson is given as follows:

J. B. Stetson, Eng., Chairman, California: Dear Sir: I note by the Associated Press dispatches that you are actively engaged appointing committees throughout the State to serve as an Executive Committee of the newly organized Traffic Association, which I understand has been formed for the purpose of protecting the merchants, shippers and producers of the Pacific Coast in their relations with the railroad companies to obtain reduced rates for the products of the Coast shipped east-bound, and for west-bound traffic.

For some time past I have been agitating this matter in Southern California, and have recently addressed a communication to the respective representatives of the Southern Pacific and Santa Fésystems here, incorporating the wishes of the shippers and producers of this section that reduced rates might be made at once, in order to allow the products of this section of the State to move at such rates as would permit of large exports.

I introduced a series of resolutions to the Chamber of Commerce, which were adopted, asking for the appointment of a committee to confer with the above-named represent-

THERE is convened at Rome an international peace conference, having for its object the submission of all questions likely to precipitate war to arbitration. This conference is a continuation of the work done last year at London and the year before at Paris. In view of the 3,000,000 of armed sol diers in Europe and the work in hand of extending navies, fortifications and armaments, it seems eminently proper that a peace congress should roll up its sleeves and get to work. It is pleasant to be able to record, in the first place, that the play was evidently put upon the stage with all the attention to matters of detail in the mounting, scenic effects, costuming and numbers, that were promised in advance. So rarely is this done by visiting companies that the fact deserves mention.

of 12 years old is able to do as much work in thinning and topping as a man, and in some cases gets along a great deal better. A man with two or three boys will be able to take care of 10 acres entirely within his own family if properly handled. We repeat it—the sugar-beet industry on the Chino ranch presents the best opportunity to a poor man with a family that has yet been opened up in Southern California. That the performance produced a pro-found effect upon the audience was amply evidenced by the close attention and the applause with which it was honored. Just applianse with which it was honored. Just how much of this appreciation was due to the brilliant French dramatist and how much to the splendor of the scenic effects and perfection of detail exhibited in costuming, might, in view of the pleasure afforded by the exhibition as a whole, be considered rather an ungrateful calculation. But, truth to tell, the Frenchman is not in the race with our One man, whose name can be given if necessary, came here last spring with a family, and practically no capital whatever. He and one son went to work in earnest, and now on figuring up he finds that he has received about \$600 from his beet crop and about \$200 in wages outside. He said: "Doing my very best and working hard on my farm in Nebraska, I was never able to lav up more than \$150 for my years's work, and then both season and prices must be the Frenchman is not in the race with our own divine William, and in his attempt portray the delights and the woes of "Cle portray the delights and the woes of "Cleopatras" experience, he has not succeeded in elminating that nineteenth century atmosphere which breathes through his other famous productions. As interpreted by Miss Davenport this failing, for so it must be called, is specially observable in the scene where "Cleopatra," after hiding behind the bed curtains and listening to "Marc Anthony's" love passages with his wife, comes out and talks to him in a way that suggests the Parisian cocotte. There are some scenes in which the language rises to dignity and the heights of passion, but in the main the dialogue is, as translated, not remarkable for any particular brilliancy. It may safely be said that if the success of the plece had to depend alone upon the author and then both season and prices must be very favorable." Naturally, he is well pleased A weekly paper called the Alliance Farmer, published in this city, prints Up to date it is reported that the coal miners of Tennessee have liberated 500 convicts employed under contract to work coal mines. The most striking figure of the piece was undoubtedly the "Marc Antony" of Mel-bourne MacDowell. There was a strength, bourne MacDowell. There was a strength, a virility and a self-containment in the personation that stabilized at once its superior excellence and made the actor tower above his fellows. Mr. MacDowell is gifted by nature to appear to advantage in that most trying of all stage costumes, the Roman. His appearance is not only grand and commanding, but his voice and his elocution are alike admirable and he seems certainly to be particularly suited to the portrayal of just such characters as that he undertakes in this play. When it is considered of how few men on the stage today this can be truthfully said, the distinction is a high one.

Fanny Davenport's "Cleopatra" is played tith all the consummate knowledge of Fanny Davenport's "Cleopatra" is played with all the consummate knowledge of stage art and theatrical effect and womanly tact that enable an actress of her talent to really shine in a character for which she would never be cast by any stage manager of average ability. It is remarkable to observe the manner in which she conquers difficulties that would be insuperable to any ordinary actress with greater physical fitness for the part, and she compels admiration for her consistent, well-conceived and forceful personation. It is true that in the first two acts she does not exert herself greatly, but in the third act she springs like a lioness at the poor messenger—very well done by Mr. Mayer—and in the "incantation" scene, where the storm is raised, she rises to a really great height. The storm, by the-by, was the most realistic thing ever seen on the stage, and if the new semokeless powder had been used for the-base effects it though the provement.

Theodore Hoberts was excellent as the Slave. He has a very striking, picturesque character to play, and makes everything out of it that seems possible.

The incidental music was original and appropriate. The orchestra deserves credit for its interpretation of it.

The/spectacle will be repeated each night this week and is certainly worthy of a second visit.

FARMERS' CONGRESS.

The Annual Gathering of Grangers Begun at Sedalia, Mo.

ddresses by Gov. Francis and Others Resolutions Adopted Highly Eulo-gizing the Course Pursued by Secretary Rusk.

SEDALIA, (Mo.,) Nov. 10.—[By the Associated Press.] The eleventh annual session of the Farmers' Congress began today. Two hundered and seventy-five delegates and a large number of visitors were in attendance. Thirty States and Territories were represented. Woods's Operahouse, where the congress is held, was elaborately decorated with farm products. Welcoming addresses were delivered by Gov. Francis, Mayor Carroll of Sedalia and Frank B. Meyer president of the Sedalia Commercial Club, which were responded to by Hon. A. W. Smith of Kansas, Col. Daniel Needham of New England, and D F Clayton of Iowa, secretary of the Farmers' Congress.

In the absence of President Kalb of Alabama, who was unavoidably absent, Vice-President Smith of Kansas pre sided. Gov. Francis of Missouri, in his address of welcome in behalf of the State, said that class legislation had been one of the potent causes of de-pression of agricultural interests. This depression had been of long continuance and it was time now that the farmers were given recognition in the councils of the Nation. There were two great questions, the proper solution of which would tend to amelioriate the farmers' condition. One was the improvement of the great water courses which would furnish cheap transporta-tion for farm products. The Missouri tion for farm products. The Missouri River could be improved at a cost of \$20,000,000, a sum small compared with the expenditure of the billion-dollar Congress. The other was the improvement of the country roads, which would furnish good transportation for small farmers to the nearest markets.

Vice President Smith responded. He agreed with the Governor that the great

water courses should be improved both in the interest of the farmer, manu facturer and merchant. Twenty million dollars was a small enough amount to be devoted to the improvement of a big river like the Missouri. He was not alarmed, he said, at any billion-dollar Congress. He thanked God he lived in country where the appropriation of a million dollars by one Congress would where the appropriation of a dollars by one Congress would not bankrupt the treasury. The agricultural was the greatest interest of the Nation, and legislation should take it more into account than it does.

Before recess resolutions were adopted, on motion of D. C. Wagner of Illinois, tendering to Secretary of Agriculture Rusk sincere thanks "for the great and good work he has accomplished for the farmers, and to beg his continuous in the same line." The continuance in the same line. The preamble refers to Rusk as "Our farmer Secretary of Agriculture:" speaks of his work in regard to opening the for-eign markets, the eradicating of contageous diseases among cattle, etc.

DUBLIN, Nov. 10.—[By Cable and Associated Press.] William O'Brien publishes a long letter in Freeman's Journal denouncing the conduct of Redmond and Harrington in trying to deceive the Irish public by pretending, on the strength of their hope that he had lost Parnell's letter, that it disclosed treachery toward Parnell and other Liberal allies. O'Brien now gives the letter to which was the only letter he wrote to
Parnell during the Boulogne negotiations that had not yet been published.
Parnell's letter to O'Brien suggests
that McCarthy interview Gladstone and get a written memorandum embodying the assurances already given about land and police being transferred to the custody of Ireland; that if the memorandum was satisfactory to both Parnell and O'Brien, the former would

announce his retirement from the chairmanship; that the terms of the memorandum should not be disclosed until a Home-rule Bill was introduced, and not then unless the bill was satisfactory, but after the passage of a satisfactory bill Parnell should be permitted to publish the memorandum instead of a two years' limit within which the constabulary should be disarmed and converted into a civil force. Parnell agreed that into a civil force. Parnell agreed that the time might be extended to five years, but said it was of vital importance that some limit should be fixed. The letter in conclusion gives O'Brien permission to show it to Redmonds's brother and

O'Brien says that on receiving this letter he telegraphed it to Mr. Harring-ton, who replied that Parnell's pro-posals were subject to O'Brien's acposais were subject to O'Brien's accepting the chairmanship. At the same time O'Brien wrote to Parnell to the effect that the proposals were feasible provided McCarthy continued chairman, otherwise as the Hawarden plan involved the employment of McCarthy to a painful transaction, they would in a painful transaction, they would raise a formidable difficulty.

O'Brien concludes with an expression of the belief that they would be able to devise some other equally satisfactory plan, In a postscript he says that he consulted Redmond and Gill, and all agreed that when they met next May they would be able to arrange a modus vivendi. O'Brien contends that the foregoing disposee of the Parnellite plea that Parnell's retirement was to be a sham, and that he was to have a right of veto in connection with the Home-rule Bill.

TONNER'S STATEMENT.

He Declares That He was Working for Mrs. Palomares.

And Insists That He is Not in Any Way to Blame.

Admits That He is in an Awkward Pre licament in Certain Contingencles, but is Willing to be Investigated.

P. C. Tohner called at THE TIMES of-tice yesterday and made an elaborate statement regarding his connection with the land affairs of the Pomona Land and Water Company and the lands of Mrs. Palomares.

In the interview, he said: I am now the attorney of Mrs. Palomares and have been ever since 1876, but if she is correctly reported in The Times this morning, I will at once redeed to her the lands and interests which I hold only as her trustee, and close my business connection with her.

her trustee, and close my business connection with her.

In 1882, she sold various tracts of land to the Pomona Land and Water Company, receiving a small proportion of the purthase price down, but the conveyance shows that she was not to receive the remainder until she removed the cloud which was upon her title, growing out of a suit to set aside a decree of partition between the original owners of the San José ranch. A large part of the interest of one of the other owners and a small portion of the other owners and a small portion of the other had been acquired by the San José Ranch Company. The suit was decided by the Supreme Court in 1884, and whether the decision was just or unjust, it made the owners tenants in common. In December, 1888, iconcluded an arrangement with the San José Ranch Company, which they received a quit-claim deed from Mrs. Palomares for an undivided onement with the San José Ranch Company.

lect the remainder due her from the Pomona Land and Water Company, and particularly for 300 acres sold to Seth Richards, who refused to pay her one cent until his title was perfected. Prior to this the quit-claim of the San José Ranch Company to Mrs. Polomares, Louis Phillips had quit-claimed to the San José Ranch Company the interest he owned as the successor of Vejar in the tract, amounting to about one thousand acres. The Areñas portion had been deeded to Dalton, and from him it passed to Slosson by foreclosure. Slosson conveyed to the Mound City Land and Water Company was created about October 80, 1882.

"The various transfers to Mrs. Palomares conveyed what is called the cloud on the titles to the lands over which this excitement has arisen. The cloud was known to exist previous to the transfer to Mrs. Palomares, and under it M. L. Wicks had collected \$200. This money was paid over to me by Wicks for the account of Mrs, Palomares, and paid it to her on the day that the deeds were exchanged.

"In December, 1888, or in January, 1889, Mrs. Palomares deeded to me (intrust, though not so stipulated in the conveyance) all of the undivided two-thirds of the ranch, which had been deeded to her in exchange for the San Dimas league of land and her one-third interest in the lands owned by the ranch company. Inever paid her any consideration for the land or interest deeded and never at any time or to any one claimed that Iowned it. On the contrary, Istated to every one with whom I had any business growing out of this affair, that I was acting for her. There are quite a number of cases in which, upon her order, I made quit-claim deeds without any consideration other than the notary fees. I also had her verbal authority to use my discretion as to the amount I should charge in all cases where not specifically directed by her. In pursuance of this authority, I gave deeds for nothing to all ex-soldiers and prisoners of war, and to all gidows. These are facts well known at Pomona. I free equently advised Mrs. Palomars about prisoners of war, and to all wisolaters and prisoners of war, and to all widows. These are facts well known at Pomona, I frequently advised Mrs. Palomars about prices and of the sums received by me. I have paid over to her about eight hundred dolars. My compensation was an agreed per cent of the amounts which I received."

"But Mrs. Palomaras tracked desirable."

and of the sums received by me. I have paid over to her about eight hundred dolars. My compensation was an agreed percent of the amounts which I received."

"But Mrs. Palomares states distinctly that she never intended to convey to you any interest or title to any lands which she or her husband had sold to any one else, and as she cannot read or write English, she depended upon you to put in the deed only the unsold portions of her land."

"She may say that: but the deed itself excepts from it just such lands as she says the meant to convey. I am certain that one of her children wrote her name to the deed.—I think it was her son Francisco. Any how, the exact force of the deed was fully explained to her, and she understood it fully. Of course, if she and her son both swear to the contrary, it would place the plame upon me."

"What about the connection of Pr."

swar to the contrary, it would place the slame upon me."

"What about the connection of Dr. Nichols with this matter, and the deeding of 300 acres to E. Burr, Jr.?"

"The. Pomona Land and Water Company, of which Dr. Nichols is president, owes a bonded debt of \$100,000. Burr is the trustee for the bondholders under the mortgage. When the loan was proposed, Burr examined the security for the investors, and upon his favorable report the loan was made by the investors. All the property was deeded in trust to Burr. After the execution of the mortgage by the land and water company, the Citizens' Water Company and others sunk wells on the Kinsley tracts, and other pieces of land near the wells of the Pomona Water Company, and the result was that they very seriously diminished the flow in the wells of Dr. Nichols. I suppose the only motive which the Doctor had was to guard the interests of his company and add to the security of the bondholders. The Packard, Tom Dunn and other places were yielding water which was injuring the flow of the Pomona Water Company's wells, just as Gird's wells destroyed the flow in the Kinsley wells. The Packard wells diminished the flow of ten of the wells of Dr. Nichols. The Doctor paid me a sum of money, I won't say how much, for the quit claim to Burr, and I understood that Burr wanted it done to strengthen the securities which he had placed. Before I madethe deed I saw a telegram purporting to be from Burr, saying he would accept the trust, but it did not occur to me that he was not a party to the transaction. The telegram was in answer to one sent him by a son of Dr. Nichols, but I did not know why it was sent."

"It is charged that you made the deed to Burr to delay litization in the matter of the

lands are worth \$1000 per acre. I am perfectly willing to deed back to Mrs. Palomares all of her interests now in my name, and she can give quit-claims to all the people out there if she wants to, but it is not fair to me that I should be accused of having deceived her or exceeded my authority. This accusation charges me with a crime. I have never pretended that her claim was an equitable one—but it is a legal claim. I did not make the facts upon which the claim was established."

"Why did you stay away from the meeting, and why are you now absent from Pomona?"

ing, and why are you now absent from Pomona?"

"Because I was advised that I was in personal danger if I remained there. I did not want to do anything that would increase the excitement, even if I could have had aguarantee of personal safety. I am willing to have the grand jury investigate the whole matter, and I feel certain that if they get the truth I will not be indicted. I cannot tell to what extent Mrs. Palomares may be induced by fright or other causes to repudiate what she has done, but I will stand by the record and try to present all the facts. I will go before the grand jury, if called, and tell them all I know."

It will be seen that Mr. Tonner practically corroborates all that has been said by the other side, but lays all the blame upon Mrs. Palomares. He real-

Rev. Daniel Read, pastor of the First Baptist Church, gave an address of welcome, after which the president, E. W. Spencer of Fairmount, formally opened the convention.

The topic of the afternoon was "The Thirsty Land." The primary department was first considered under this head, and Mrs. Milton Wolfskill read a carefully prepared essay on the "Needs and Dangers of Child Life," which was full of earnest appeal to those who have the early guidance of the little feet which must go somethe little feet which must go some

the little feet which must go somewhere, somehow.
George T. Hanley followed with an address on the same topic.
The intermediate classes were next considered, Miss S. E. Davis reading a paper which awakened serious thought on "Temptations, Snares, Hindrances, Needs," and was followed by an address from Prof. H. E. Storrs.
The subject for evening discussion was the water courses. "Make this Valley Full of Ditches"—the channels of communication by which the rivers of living water should get to the thirsty fields.

RAY'S "DISAPPEARANCE."

Shortage in His Accounts Explains His Brief mention was made in THE TIMES yesterday morning about the disap-pearance of E. A. Ray, Southern Pa-cific passenger and freight agent at San Bernardino, and stated that on Sunday last a new man had been put in charge of the office. An Associated Press di

patch from San Bernardino yesterday afternoon gives the following particular afternoon gives the following particulars:

E. A, Ray, agent for the Southern Pacific at this place, disappeared Wednesday, and has not since been heard from. An examination of his books shows a shortage of \$1000. He has been suffering for the year with cancer of the stomach and has

been compelled to use cocaine. His friends believe that he has committed suicide. Last evening the following Press dispatch was received from San Francisco, which puts the matter in a ew light:

DR. WOH,

The Eminent Chinese Physician.

Dr. Woh's life work has been from early youth one of persistent and untirin in all branches of the art of healing human sickness and disease. Born in China, of as leading physicians, Dr. Woh naturally followed in the footsteps of his fathers. In China he has practiced his profession for several years, being at one time a physician in the Imperial Hospital, and in America for a long time. His great

healer of sickness and all diseases.

For a long time I have been suffering with bladder and kidney troubles. No doctoring or medicines seemed to do me good. I consulted the beat physicians and surgeons in Los Angeles city. They gave me morphine and drugs, but no relief could I obtain. After suffering great pain and having my passage almost entirely clogged. I fourteen days ago began using Dr. Woh's medicines. Today I am perfectly well. I do consider Dr. Woh the most successful physician in Southern California.

C. A. STEELE, 316 and 318 S. Main st., Los Angeles, Cal. October 13, 1891.

I have tried many doctors for heart disease but have derived no benefit until Dr. Woh, the Chinese physician, of Los Angeles City, prescribed for me.

Two months ago I began his treatment and can now certify that he has done me great good. I recommend Dr. Woh to my firlends as na ble doctor. P. E. KING.

Dr. Woh was recommended to me by a friend. I had been troubled for years with indigestion, causing fearful headaches and vertigo, making my life one of misery. I tried and paid the best physicians without relief. Finally, to please my friend, I visited Dr. Woh at his office and he advised with me and gave me medicines. This was but six weeks ago. Today I can gladly and sincerely say that he has entirely cured me. April 3d, 1591. 331 Court st. L. A. Call T. Cloveland. O. many months ago.

THE TIMES is delivered and distributed in Pasadena at an early hour every morning. The branch office is at No. 50 East Colorado

The chrysanthemum fair opened under the auspices of the Charity Organization Society, yesterday, under most auspiclous circumstances, in the Morgan Block, on

South Raymond avenue.

The large display of flowers was not finally arranged until late in the afternoon, but by evening everything was in tiptop shape, and the large hall wore a most attractive appearance, when brilliantly illuminated and thronged with a gay crowd of interested spectators.

of interested spectators.

While the display of chrysanthemums tains few new varieties, it is large and contains few new varieties, it is large and includes many new and beautiful speci-mens. The Park Nursery Company is re-sponsible for the greater part of the dis-play, which includes, besides hundreds of chrysanthemums and towering plants, some rare palms which were prize winners at the recent fair in Los Angeles. To the right, as one enters the hall, Mr. Hovey of the Raymond nurseries has on exhibition a number of rare and beautiful chrys-anthemums, which include one or two entirely new varieties. On the opposite side of the hall Mrs. C. C. Lowe of Michigan avenue has a very praiseworthy individual collection. Further back to the left is the candy booth, presided over by Miss Ida Morton and Mrs. James H. Cambell and in the extreme rear of the hall is the ice cream and oyster department where Miss Jessie
Patterson holds sway with Pete Stell as
chief and only cook. A stage is erected in
this portion of the hall where a musical programme is rendered each evening.

Yesterday lunch was served at the Bansing Block under the direction of Mrs. W. U. Masters. So popular were the viands that receipts to the amount of nearly half a hundred dollars were taken in. Today Mrs. J. A. Buchanan will be in charge of this department of the fair. She will be assisted by Mrs. C. M. Hester, Mrs. I. W. Mundell, Mrs. C. W. Buchanan, Mrs. S. Shannon, Mrs. Woodworth, Mrs. Croner and Miss Brewer.

Yesterday evening the Pasadena band gave an open-air concert in front of the hall, and later on the following musical programme was rendered inside:
Selection from "II Trovatore"—Miss Wilde, Messrs. Brockway and Collingwood. "Robin Adair" (Buck)—Polymnia quartette: Misses Dexter, Peck, Stoutenburgh and Henderson.

"Greeting to Spring" (Strauss)—Polymnia quartette and orchestra.
This evening the Harmonia quartette
will take a conspicuous part in the musical
programme, and tomorrow night the Pasadena band will be heard.
The fair excels all previous efforts in this
direction in Pasadena, and will no doubt
receive the liberal patronage it deserves.

RESULT OF A RUNAWAY.

RESULT OF A RUNAWAY.

Ed Braley, a popular young man of town and a member of the firm of Braley & Co., fruit dealers, met with a serious accident yesterday morning while driving a load of fruit to Los Angeles.

The team consisted of a wagon and a span of horses. When nearing the railroad bridge near Garvanza, a Terminal train came along and frightened the horses. The animals jumped forward, causing the pole to drop to the ground. This made matters worse and the team was soon be yound Mr. Braley's control. The horses did not run far before the wagon struck a pile of stone and was overturned. Mr. Braley as thrown violently to the ground, where he remained until some neighbors came to his home in Pasadena. An examination by Dr. Mohr showed that his left arm had been broken near the elbow, while his forhead was badly cut and bruised. Although he will probably be confined to the house for some time, the injuries, happlly, are not regarded as dangerous, which will be goon news to Ed's many friends.

A genuine surprise party was accorded the members of the City Council yesterday afternoon when a delegation of a dozen or more handsome laddes entered the chamber unannounced and asked to be heard on some vital questions now agitating a portion of the female mind in this city. One of the ladies scored the local officers most unmercifully, saying that they turned their backs on saloon riolations, and it was well understood why this was so.

The arraignment, all around, was a severe one, and fairly took the breath from some of the members, who are somewhat accustomed to listening to the ordinary run of polemic eloquence.

That the ladies present meant business there was no mistake.

They came to the Council chamber, they said, representing the mothers of the city in the hope of "saving our boys from becoming drunkards and gamblers."

They wound up by asking for a special ordinance to prevent gambling, and, on motion of Councilman Brastow, the City Attorney was instructed to draft an ordinance to that effect and present it at a future meeting.

The Councilmen all yoted for this except.

"So you see" remarked the attorney, "there is already considerable law on this subject, but it does reach these smaller games among individuals where no bank feature is involved."

Then Mr. McNulta explained how the courts had sustained the Sunday-closing ordinance and said that the law was all right and that one saloon-keeper had been convicted under it and any number might be if they were in violation and the proof was forthcoming,

It needs but a moment's inspection to see that at last here is the very perfection of coffee pots. Making good coffee is reduced to an exact science, and so simple is the method, that with this pot, there need never be a failure even though a child do the work. It filters the coffee, condenses the vapor, allows none of the aroma or strength of the coffee to escape into the room, saves coffee saves time, and really makes it practically impossible to have anything but good coffee. Housekeepers should see it at once. There hasn't been such a boon for them introduced in many years before. And the pots do not cost much-very little more than those of the ordinary kind, while in appearance they are all that could be desired. At present they are only to be seen at Mr. Faul's store. nishing store, No. 122 West First street. It

Both the article and the price are so unapproachable that they make what may be called an invincible combination. It is a union of the big and little-a big return for little outlay. That is the way we make extremes meet, and here's another illustration of it:

Given Away!

For the balance of this month we will give to every purchaser of a suit or overcoat, a fine walking stick. We have them in a hundred different styles. Some of them could not be bought for less than \$2.00. You will find them on exhibition in our middle window.

FOR: THE: BOYS!

We always have something. Just now we are giving with every boy's suit, either a nice ebony ruler or new kind of magic brick Savings bank. Ae we said in the beginning, "We are in it," and if you take advantage of our offerings you will be "in it."

UMBRELLAS GOSSAMERS!

CASES of Umbrellas and Waterproof Garments were received last week, being the best and most reliable goods in the market; still, notwithstanding that fact, we are offering them at lower prices than are being asked (by the trade) for a much inferior article.

GOSSAMERS ...
